

# EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

## OVERVIEW

Embry-Riddle Aeronautical University (ERAU), founded in 1926, is the largest and oldest, fully accredited university specializing in aviation and aerospace. The University offers quality full-time and part-time programs that are suitable for anyone. No matter which program students choose, they can benefit from having a degree backed by the Embry-Riddle name and everything it stands for – leading-industry knowledge, faculty who are also industry professionals, partnerships with globally renowned companies and lifetime affiliation with a group of individuals as passionate about aviation and aerospace.

Embry-Riddle is a corporate partner of **ICAO's TRAINAIR PLUS program**, a cooperative network of training organizations and industry partners working together to develop and deliver ICAO-harmonized training packages.

## ABOUT THE ASIA CAMPUS

The Asia Campus of Embry-Riddle Aeronautical University is located in Singapore, a strategic location that allows the University to deliver higher education and research in aviation and aerospace in key countries of the Asia Pacific Region. The University offers highly recognized aviation-related degree programs that include:

- Bachelor of Science in Aeronautics
- Bachelor of Science in Aviation Business Administration
- Bachelor of Science in Business Analytics
- Bachelor of Science in Engineering
- Master of Science in Aeronautics
- Master of Business Administration in Aviation

Designed and taught by professionals within the field, students can expect to learn the latest in-demand skillsets that make them highly sought after.

## PROFESSIONAL EDUCATION AND TRAINING

Embry-Riddle provides first-class professional education and training, taught by leading industry experts that allows working professionals to stay current and take their career to the next level.

### - Foundations of Aviation Cybersecurity Leadership and Technical Management (ICAO TRAINAIR PLUS Program Course)

This five-day foundational course in aviation cybersecurity, part of **ICAO's TRAINAIR PLUS Program**, aims to train aviation professionals to identify and better respond to current and future cyber threats to the benefit of the aviation industry. Participants can opt for the cybersecurity leadership or technical management track, learning the concepts and processes, thereafter, put them into practice.

Program is scheduled to roll out in 2021. Please e-mail [asia.PET@erau.edu](mailto:asia.PET@erau.edu) for more information.

### - Graduate Certificate in Aviation

The Graduate Certificate in Aviation (Asian), an Aviation Management program, is specifically created to focus on the aviation industry in Asia. This comprehensive program covers key topics like Airport Management, Applied Economics in Aviation and more. Program attendees can expect to learn skills to further operate and manage their aviation organization, and the application of fundamental concepts to the global airline industry, with a particular emphasis on the Asia-Pacific Region.
