

SINGAPORE COMPONENT SOLUTIONS PTE LTD

Company Profile

Singapore Component Solutions is a joint venture between two of the world's leading aircraft maintenance specialists, Air France Industries – KLM E&M and Sabena technics. Ideally located in Singapore on a 4,500 sqm state-of-the-art facility.

Created in 2016, Singapore Component Solutions received its first certification from EASA and inaugurate its **Component repair workshop** for ATR's the same year. Today our expertise grew with A320 and A330 and includes the more than 200 different product families for a vast range of technologies.

- | | |
|--------------|-------------|
| • Avionic | • Oxygen |
| • Mechanical | • Cabin |
| • Hydraulic | • Composite |
| • Pneumatic | • NDT |

More than 6500 components are repaired or overhauled every year.

Singapore Component Solutions Currently holds 14 different Approvals from Aviation Authorities in the region and globally on 14 C-ratings. Established partnerships with multiple renowned OEM allows Singapore Component Solutions to support various customer requirements in the region and beyond.

More than just Work

At Singapore Component Solutions, we believe strongly not only in the growth of our capabilities and processes, but also in the growth of our employees. We encourage employees to take on new challenges which foster both personal and career progression. We encourage:

- | | |
|-----------------------------|--------------------------|
| • Work Life Balance | • Teamwork |
| • Family Oriented Workplace | • Innovative Initiatives |
| • Career Growth | • Open Feedback |

At Singapore Component Solutions, we are looking for passionate & committed people with strong work ethics! Our capacities to innovate and produce are the everyday concerns of the men and women who form our company and who trust in our corporate project.

More importantly, we Value our Team!

What's Next?

In the coming years, we will continue with our capability developments, notably electro-mechanic, avionic, pneumatic, hydraulic and engine component related product families. By taking on new workforce, SCS intends to grow progressively while continuing to provide the best level of service to its customers.
