

INCORA ASIA PTE LTD

Our Products and Services

Hardware

A broad inventory of B and C class aerospace hardware for some of the most critical components deployed across aircraft.

Chemicals

A wide range of ready to ship consumables, distributed from regulatory compliant and temperature controlled warehouses.

Electronics

A wide selection of high performance electronic products, assemblies, connectors, and sensors.

Supply Chain Management

Innovative supply chain solutions that reduce complexity, increase efficiency, and drive cost savings.

Inventory Management Services

Technology and data driven solutions that reduce on-hand inventory while preventing shortages.

Chemical Services

Software solutions and on-site services to support your chemical management and compliance.

Kitting

Custom kitting solutions that save time and reduce inventory.

Vending

Optimize your shop floor inventory usage.

Distribution

A comprehensive inventory of hardware, chemicals, electronics, and more, shipped from our global warehouses.

Incora™ is a leading, independent distributor and global provider of innovative supply chain solutions.

We were forged by the joining of two industry leaders in supply chain solutions, Wesco Aircraft and Pattonair, with over 100 years of combined experience in service excellence and supply chain management. This expertise and our global reach allow us to support some of the world's most critical industries, including defense and space, commercial aerospace, and aftermarket.

We are specialized in finding solutions to complex challenges and will work to bring efficiency and simplicity to your operations.

Our product Commodities includes Hardware, Electronics, Chemicals and Supply Chain Management Solutions.

Working from the inside-out, we incorporate our capabilities into our customers' businesses and add value where it matters most. This drives efficiency at every level of the supply chain and supports our commitment to building the strongest customer service culture in our industry.

Our capabilities go hand in hand with a focus on innovation. From machine learning enabled forecasting software to advanced chemical management systems, we embrace new technologies that help us drive growth for our customers.
